

Guess that these pups should be called the Memori -OL's because they are the O litter. Thought that you would be interested in seeing how they are doing.

Dark Green - male 12.95 ozs. 16 1/4 ozs.

Black - female 11.9 ozs. 15 1/2 ozs.

I have already submitted my list of names to the good folks at CCI. It will be fun to see how soon the pups receive their official CCI names.

Puppies are all good nursers. So, far nine-nippled Senta has managed to keep all pups fed and gaining. I will probably have to start supplementing the puppies at some point prior to their starting on puppy-mush but not yet.
